

Show / Hide Page from Menu

Video Overview

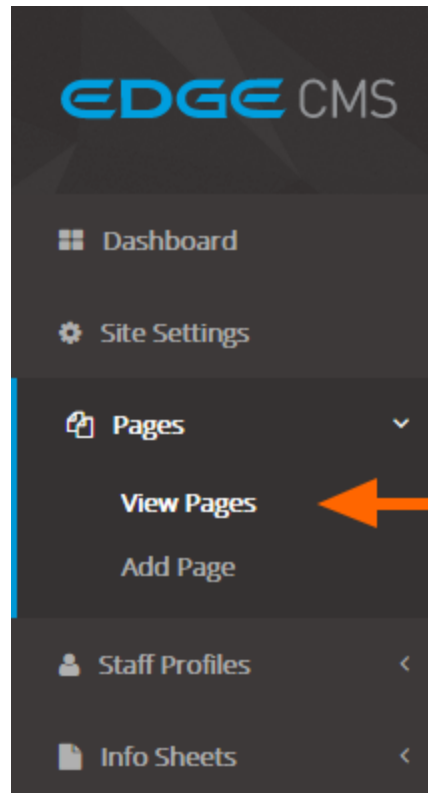

Use **Display Order** to show and hide pages in the Navigation menu and footer links.

Setting the **Display Order** to **9999** will **hide** the page in the navigation menu and footer.

SHOW	1 - 9998
HIDE	9999

STEP 1 - Access

Select and expand the **Pages** menu item and select the **View Pages** option.

STEP 2 - Set Display Order

Click the page's **Display Order Number** to activate the input box and save button.

Enter the desired display order from **1** to **9999**.

Lower values will appear higher in the menu hierarchy.

Home is not able to be altered and always appears first.
